

We want to take your business to the next level

Effective branding

Monitoring tells you what your customers need before anyone else. Meet their needs and build loyalty with your services. This is effective branding

New sales generator

A new customer registers in the Nubepoint app. You start generating new sales

Sell without inventory

Sell without inventory: the information in the system lets you know how much, when and what consumables your customers need.

Strengthen ties with your customers

Communication with your customers is direct (push notifications or call). Your customers have you at their fingertips on their mobile with the Nubepoint app.

No cost

No further investment. With your current Nubepoint license.

Evolve and improve

Improve your operational efficiency. Sell more with less inventory. Optimal customer service. Your business is more profitable

How does it work?

By combining the Nubeprint app with your Nubeprint licence, new customers come to you, and your existing customers start to make recurring purchases.

1

The new customer scans the QR code and installs the Nubeprint app.

Your customer registers with a promotional code that identifies your company.

2

As soon as the mobile phone is connected to the Wifi, the service starts.

For home and small business printer(s).

3

From your Nubeprint control panel you monitor the status of your printer.

You know which cartridge and when your customer will need it.

4

Let your customer know or offer him the cartridge before it runs out.

Nubeprint tells you the correct model and part number. As it does this in good time, you don't need to keep stock.

5

Delivery always on time.

Convert your customers into loyal customers who buy all their cartridges from you
